Last Updated: 5/30/03

☑ Supported
Not Supported
☑ Offered by HP[3]
☑ Supported on SCSI model **ONLY**
☑ Certified with LifeKeeper for Linux
☑ Embedded NIC not supported on OS/2
☑ Not supported on 1.5 and 1.9 GHz models
● Planned

1 "Supported" indicates that an operating system has been successfully tested on the ProLiant server and drivers are available

2 Includes support for all Microsoft Service Packs or Novell Support Packs

3 Language and server support varies by country and by region

4 700Mhz/2MB Xeon model of ProLiant 8500 only

5 Supported on 500MHz and higher systems

6 Check product QuickSpecs for minimum shipping version supported

7 Conectiva Linux Enterprise Edition, SCO Linux 4.0, SuSE Linux Enterprise 8 and Turbolinux 8 all powered by Unit

8 Hyperthreading is not supported in the 2.4 kernel above 4 CPUs.
